Company information

EU Supported: Off

If you select the EU Supported option, the most common support issues will be limited to an IBM Cloud team located in the European Union.

Learn more

HIPAA Supported: Off

The US Health Insurance Portability and Accountability Act (HIPAA) requires that you enter into a contract to ensure safeguarding of protected health information (PHI).

If you or your company is a covered entity as defined by HIPAA, turn on this setting to accept the IBM Business Associate Agreement (BAA) and enable this account to run sensitive workloads regulated under HIPAA.

Note: If you are not a covered entity, do not enable this setting. Instead, contact IBM Cloud Sales to accept the applicable IBM Business Associate Agreement.

Learn more

On

Virtual routing and forwarding: Off

Virtual routing and forwarding (VRF) isolates the IP routing for services in your account to a separate routing table. Learn more.

Important: Enabling VRF permanently alters networking for your accouncannot be undone.

11/5/22, 8:06 PM IBM Cloud Account

IBM Cloud Create case Account **Account resources** Service endpoints: Off Resource groups **Cloud Foundry orgs** IBM Cloud service endpoints enable you to connect to select services over the IBM Cloud private network instead of the public network. Connecting directly to Licenses and entitlements service endpoints does not require internet access, providing increased security. Tags Learn more. **Dashboards** Virtual routing and forwarding must be enabled before you can turn on service endpoints. **Account settings IBM Cloud Shell settings** Notification distribution list Classic infrastructure Close this account **Subscriptions** This action cannot be undone.
